

Factsheet

January 2023

- Novatr offers online courses for **architects, engineers, and construction (AEC) professionals** to help them upskill and achieve their career goals successfully.
- Established in 2021, the startup aims to connect traditional AEC education with the rapidly changing tech world, **helping learners become job-ready professionals**.
- Novatr aims to make AEC technology more accessible through a platform that provides **tools, tech, and mentoring for everyone**.
- The **key focus areas** are improving platform infrastructure, innovating learning pedagogy, developing new-technology programs in AEC, and expanding the team.
- Novatr offers an immersive community learning program that brings together cohorts of up to **500 individuals from over 50 countries**.
- Novatr aims to build more courses to **expand the B2B offerings** for architecture firms, infrastructure firms, and real estate companies.
